TUESDAY, AUGUST 9, 1907

The Board of Directors of the Orphans' Home consist of the Superintendent of Public Instruction, Surveyor General and State Treasurer. These gentlemen are assumed to be men of intelligence and to have a due appreciation of each and all of their duties. This assumption caused the Legislature, as far back as 1873, to make them the guardians of the orphans of Nevada who are placed in the "Home," not only generously but wisely provided by the State. This institution has alleviated much suffering and has been the means of making men and women out of waifs, whose influence for good has been, and will be, paramount to the pittance paid to support them in the humane manner in which the institution has been run.

To add to the attractive surroundings of these little ones, and to give them mental food, Senator Fair donated a library. The late Senator Sharon was not unmindful of their wants, and when he was disposing of his vast wealth remembered the Nevada orphans and set aside the sum of five thousand dollars to aid in their advancement.

The ex-Board of Directors, consisting of Hon. C. S. Young, Gen. C. S. Preble and George Tully, after full consideration, appreciating the good results of a practical mechanical education, disposed of this vast sum by erecting a mechanical department and fitting it up in a way to afford a practical rudimentary mechanical education for the boys of the Home. No one who has visited the institution and witnessed the primary efforts made by the embryonic mechanics would for a moment question the wisdom of the application of the bequest of Senator Sharon, nor could he or she fail to advocate this means of education. Yet, the questionable wisdom of the present Board has said this industrial department's doors must be closed, without giving any satisfactory reason therefor. This department is as much a part of that institution as the school room, of which it is an adjunct, or the Superintendent's office, or the Matron's or the supply department. For the supporting and conducting of the State Orphans' Home, to be expended under the direction of the State Board of Directors, twenty-five thousand dollars were appropriated by the last Legislature. The body expected a part of this appropriation to be expended in running the mechanical department of the Home. Because the Legislature authorized the expenditure of this sum to be under the direction of the Board of Directors, by closing the doors of this adjunct, they dare to do violence to the intelligent element of the State, to the youth entrusted to their care and guidance, and to cause a verdict of unfitness for the charge they have to be rendered against them.

The last Legislature made appropriations amounting to between fifteen and twenty thousand dollars to make up for deficiencies incurred during the two years previous, a part of which was for the Home. If the Board of Directors think the next Legislature would not meet a reasonable deficiency expended where it will do so much good, they narrowly judge the humane element of the State. If their plea is economy, it is a plea that will stamp its impress everywhere, that the Board is blind, and is robbing not only the little ones now, but the State of the steps that will lead to an intelligence that may shape her future prosperity.—Journal.

## TELEGRAPHIC BRIEVITIES.

Bar silver, 96.

A Brussels telegram says that the Chamber of Representatives has ratified the convention granting an annual subsidy of \$50,000 to the Red Star line.

All of the gondoliers in Venice have gone out on a strike because night service has been started. All of the bakers of the city have also gone on a strike, and the waiters in hotels and cafes threaten to go out.

Professor Tyndal has written another scathing article attacking Gladstone. He says that all the facts tend to verify the statement that Gladstone is merely a recurrent meek through which John Morley throws over the land his fanatical treason.

A Dublin dispatch says that the West Coast Railway has been boycotted, owing to the hatred of Traffic Manager Sullivan, and placards have been posted warning people not to patronize the road until Sullivan is dismissed. Persons who travel by this line, the placards say, will be in danger of being shot.

Consul Kennedy, at Shanghai, cables the State Department that some high Chinese officials will arrive at San Francisco about the end of August on important business. He expects for them a good reception. Nothing more than is contained in the telegram is known at the Department about the matter.

## TO-DAY'S NEWS.

## The Volunteer Wins in the Eastern Yacht Race.

## MOONEY, THE DYNAMITER.

## Destructive Forest Fires and Drouth in the Northwest.

## CABLE RATES UNCHANGED.

## Buffalo Bill Entertains a Party of Americans.

## The "Volunteer" Wins.

The race for the New York Yacht Club from Newport for prizes amounting to \$1,000 ended here this morning. The Volunteer won, with the Mayflower second, three hours and a half behind. Captain Craven, of the Mayflower, says that he lost track of the Volunteer and was becalmed all night. The Bedford beat the Priscilla by a very narrow margin, taking the first prize for that class.

LATER: The Volunteer crossed the finish line at 7:40 A. M., the winner of the \$500 offered by J. Pierpont Morgan for first-class sloops in the 100-mile race of the New York Yacht Club from Newport. When the Volunteer crossed the line with scarcely wind enough to give her headway, her rivals were huddled on the southern horizon, fully six miles astern. This result shows splendid work of the new sloop in light wind, while her windward sailing yesterday, in which she outpointed every competitor, proves her to be without a rival under such conditions.

## Destructive Forest Fires.

NEILLSVILLE Wis., August 9. Forest fires have broken out again in this vicinity, and are causing much damage. The loss is heavy. Near the same place is a jam of thousands of logs. The fire is within a mile of the jam and the wind is blowing toward it.

GRAND RAPIDS, Mich., August 9. Forest fires are raging in the northern part of Kent county. At Sand Lake the fire got into the pines, and at times came near devouring the village. Burn houses and buildings were barely saved. The woods and fields in every direction about Cedar Springs are on fire, and pretty much every body is engaged in fighting the flames, trying to save farm property.

## Cable Rates Unchanged.

NEW YORK, August 9. General S. L. M. Barlow says nothing is being done to-day in reference to the advancement of cable rates, although the managers of every company are anxious to have a material increase in rates. The Commercial Cable Company and Barlow is willing to go to 40 cents, but no higher. He further said that if the rate was not fixed at about that price the public must not be surprised to see rates at 60 cents within a few days.

## A Desperado Kills a Deputy Sheriff.

KANSAS CITY, August 8. A Times special from Anamosa, Colorado, says Deputy Sheriff William Carson, a son of the noted scout, Kit Carson, was murdered several miles south of that place last Thursday. Carson had captured a desperado named Vigilant. While he was reading the warrant the latter seized his pistol and beat Carson over the head until he died. The murderer escaped.

## Fate of a Prohibitionist.

GALVESTON, Tex., August 9. Alexander Walker, the colored prohibitionist speaker who was set upon and badly beaten and mangled, being thrown against a wire fence soon after he had made a speech, near Webster, last week, died Sunday from the effects of his injuries. His friends claim he was beaten by anti-prohibitionists, but it is not known who the assailants were.

## A Terrible Hailstorm.

CHICAGO, August 8. An Inter-Ocean special from Winnipeg says: Southern Manitoba was visited by a terrible hailstorm this morning, doing great damage to crops. Some of the hailstones measured several inches in circumference. The injury to wheat has been very severe. A number of farmers will not be able to reap the wheat, so complete was the destruction of the storm.

## A Terrible Drouth in the Northwest.

CHICAGO, August 9. Telegrams received this morning from central points throughout the entire 75,000 square miles of the drouth-stricken northwestern country show a fearful sun scorching of all vegetation, and not a drop of rain has fallen except an inch of a hundredth of an inch.

## Mooney, the Dynamiter, Adjudged Insane.

NEW YORK, August 9. The Examiners in Lunacy for the Department of Charities and Correction to-day reported that they had examined Mooney, the alleged dynamiter who set fire to the Queen, and found him insane.

## An Aggrieved Chinaman.

DETROIT, August 9. Sam Wo, a Chinese laundryman, to-day brought a suit for libel in the United States Court against the Free Press, claiming \$10,000 damages. He alleges that the Free Press falsely stated that he bought sparrows in his establishment.

## TELEGRAPHIC BRIEVITIES.

A fire at Needles, yesterday, destroyed the principal portion of the town.

Lagg Blatt says that General Winterfield who recently arrived at Gaston from England informed Emperor William that the tumor in the Crown Prince Frederick William's throat was appearing again, and that another operation would probably be necessary.

## FOREIGN DISPATCHES.

## A Difference of Opinion.

LONDON, August 9. In the Commons last night W. H. Smith announced that the Government declined to propose that Parliament guarantee and loan in aid of colonization schemes. He did not think any good would be obtained by inviting Colonial Governments to co-operate in raising a colonization fund. The question was asked what was the reason for the Government's refusal to submit returns showing the number of royal princes or persons allowed to royalty by marriage, who hold posts in the public service, and draw money from the public funds, and how many officers have been passed over by such appointments. Smith replied that in the judgment of the Government such a return would be an invidious character, and ought not to be granted. Radical cries of "Oh, but it must be granted," followed.

## Worse Than a Mob of Men.

DUBLIN, August 9. Alice Barry defied the police who went to execute a writ of eviction against her at Knocklad, County Antrim, to-day. She barricaded her house, and with the assistance of friends defended it for a long time against the large force of officers, who tried to take it by storm, and who were many times repulsed by a volley of stones and bricks. The police finally captured the house by a charge of fixed bayonets, but not until many were burnt and one was badly pitched. Five of the defenders of Alice Barry's house have been placed under arrest.

## A Buffalo Bill Entertainment.

LONDON, August 9. A rib roast breakfast in honor of Simon Cameron was given to-day by "Buffalo Bill" and Kate Salisburys, the marquis of the Wild West camp. A score of distinguished gentlemen was present, including Chancellor Mr. Depew, Murat Halsted, General Hawley, Leonard Jerome and Justin McCarthy. Mr. Phelps, United States Minister, sent his regrets, saying that he was going to Scotland. The rib roast was served to the guests on the homeliest platters, and were eaten Indian fashion with keen relish.

## Visiting Ireland.

LONDON, August 9. James G. Blaine, with his wife and daughters, are in Dublin. They left Glasgow yesterday and crossed to Belfast, proceeding thence to Dublin, where they arrived last night. Blaine intends to spend some time in Ireland, as he desires to take a quiet look at the state of the country. He says his experience thus far of European society has not reconciled him to the order of things on this side of the ocean.

## Going to Maine.

HALIFAX, August 9. Admiral Lucern will leave Halifax for Bar Harbor, Maine, next Thursday, on the war ship Richmond. The Osprey and Galena will probably sail in company with the Richmond.

## LETTER FROM OREGON.

In Need of Stores—Good Crops—A Nevada Girl Married. Burns, Grant Co., Or., July 20. Editor Gazette.—We get in the GAZETTE news from all parts of the world, but not a word from Harney Valley. Even if we are not noticed by the outside world we are not asleep.

The season has been very dry, but in spite of that we have very good crops of grain and vegetables. Hay is light, but of a good quality.

The country is fast filling up with a class of go-ahead people, and mostly men of means sufficient to go ahead with and build up the country, and our valley bids fair to become one of the best places in the State.

We have been having lively times about the swamp lands again. At one time we thought there would be a Mussel slough tragedy here, but the settlers met in Burns and all resolved to stay by their homes and one another, and as Uncle Sam's special swamp agent is here now everything will be fixed all right and everyone can rest easy about his home.

Now we are more at ease here. There are three stores here that nearly supply the demand of the people. There were nearly \$10,000 taken out over the railroad by settlers last fall to buy goods, which amount would have been left in stores here if there had been a cheap store to supply the valley at living prices.

There have been several notable events transpired here (at least for this place) in the past month, as follows: On June 30 the marriage of Mr. John Morris, of Greenville, Cal., now over in the Territory, to Miss Ella Russell, of Steamboat Springs, Nevada. The ceremony took place in the City Hall, which was decorated with evergreen and wild roses. The bride was lovely, but her sister, as bride's maid, was still lovelier. The presents were numerous and valuable.

We had a grand time the 4th. To finish up with, our representative has been here to see what we need, and now we shall expect soon to have a land office established here, and also to have a money Post-office, which is greatly needed, as we cannot get small currency.

## Proof of Merit.

The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Porous Plasters during the past twenty-five years is unimpeachable evidence of their superiority. I should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

## The Result.

The gross receipts of the Finlayson-Jose concert last evening aggregated \$309.50—300 tickets at 75 cents each and 169 tickets at 50 cents each. All of the expenses amounted to \$85.75, leaving \$223.75 as the net receipts.

## Nuptials.

Mr. Charles A. Jones, Reno's young attorney, was married last night in Virginia City by Rev. Father Tubbs to the eldest daughter of Justice Young, Miss Mary F. Young. The young couple were married at the residence of Mrs. J. C. Currie, the only parties present being groomsmen Colonel Woods and bridesmaid Mrs. J. C. Currie. It is rumored that Mr. and Mrs. Jones will hold a reception here about a week hence, after which they will leave Reno for an extended tour. The GAZETTE extends congratulations.

## Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousand of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is but one sure way to get rid of them. That is to take Boeschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed us, you may depend upon this for certain.

## A Perilous Postponement.

To postpone, when the duty for immediate action is always unwise. Especially is it so when increasing ill health calls for a resort to medication. Diseases of the kidneys and bladder are often of little growth—always of fatal tendency if not combated at the outset. We have all—even those of us who are not generally well—instructed—heard—something of the danger attending Bright's disease, diabetes, and other diseases of the kidneys or bladder. Let no one be foolishly enough to procrastinate if he perceives the renal organs to be inactive. Hostetter's Stomach Bitters are peculiarly adapted to overcome this inaction, to sufficiently stimulate, without exciting, the kidneys and bladder. Indolence is this diuretic to be preferred to the impure and fiery stimulants of commerce, which prove the lane of unwary persons with a tendency to renal trouble. They are likewise incomparable for dyspepsia, debility, fever and ague and biliousness.

## Nervative Up.

If you suffer with asthma, bronchitis, or any other disease of the throat or lungs, nothing can surprise you more than the rapid improvement that will follow the use of SANTA ABE. If you are troubled with catarrh, and have tried other medicines, you will be unable to express your amazement at the marvelous and instantaneous curative powers of CALIFORNIA CAPTIVE. These remedies are not secret compounds, but natural productions of California. Sold at \$1.00 a bottle, for \$2.50, and guaranteed by Osburn & Shoemaker wholesale and retail agents.

Fryer's Alette Cough Balm is guaranteed to give immediate relief in croup, whooping cough, bronchitis and all affections of the throat. Price 75 cents. Sold by Wm. Pinniger, Reno, Nevada. All genuine Alette preparations bear the fish-like signature of D. F. Fryer.

## ROCKY MOUNTAIN BAKING POWDER

ROYAL BAKING POWDER  
ABSOLUTELY PURE.

This powder never varies. A marvel of purity, strength and wholesomeness. It is so economical in the ordinary use and cannot be sold in competition with the small tins of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 108 Wall St., N. Y.

## And all Skin and Scalp Diseases

## Speedily Cured by CUTICURA.

OUR LITTLE SON WILL BE FOUR years of age on the 25th inst. In May, 1885, he was attacked with a very painful breaking out of the skin. We called in a physician who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, supposed by the physician to be hives in an aggravated form, became larger in patches, and more and more distressing. We were frequently obliged to get up in the night rubbing with soda in water, strong liniments, etc. Finally, we called other physicians, until no less than six had attempted to cure him, all alike failing, and the child steadily getting worse and worse, until about the 15th of July, when we began to give him CUTICURA. RESOLVENT internally, and the CUTICURA, and CUTICURA SOAP externally, and by the last of August he was so nearly well that we gave him only one dose of the RESOLVENT about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one-half of a bottle of CUTICURA RESOLVENT, a little less than one box of CUTICURA, and only one cake of CUTICURA SOAP.

H. E. RY, N. CAYSON, Livingston Co., Ill.

Subscribed and sworn to before me this fourth day of January, 1887.

C. N. COE, J. P.

## SCROFULOUS HUMORS.

Last spring I was very sick, being covered with some kind of scrofula. The doctors could not help me. I was advised to try the CUTICURA RESOLVENT, and so, and in a day I grew better. A better, until I am as well as ever. I thank you for it very much, and would like to have it told to the public.

EDWARD HOFMANN,

No 11 Atholboro, Mass.

CUTICURA, the skin cure, and CUTICURA SOAP prepared from it, externally, and CUTICURA RESOLVENT, the new blood purifier, internally, are a positive cure for every form of skin and blood disease from pimples to scrofula.

Sold everywhere. Price: CUTICURA, 50 cents; CUTICURA SOAP, 25 cents; CUTICURA RESOLVENT, 50 cents. Prepared by FORTY-SEVEN DRUG AND CHEMICAL CO., Boston.

Send for "How to Cure Skin Disease."

PIMPLES, Blackheads, Burns, Blisters and Baby Humors, use CUTICURA SOAP.

## IN ONE MINUTE.

Rheumatic, Neuralgic, Sciatic, Sudden, Sharp and Nervous Pains and Weaknesses relieved in one minute by the CUTICURA Anti-Pain Plaster.

Druggists, 25 cents. Fetter Drug and Chemical Co., Boston.

## DIGESTION

## HAMBURG

## NGS

A recent attack of indigestion or constipation is easily cured if the right remedy is applied, but every medicine except Hamburg NGS is so disagreeable to taste or smell that a person prefers to let the disease take its course if the above laxation cannot be obtained. SUGAR.

## DR. FLINT'S HEART REMEDY.

When the Heart, Kidneys and Circulation are in a healthy condition all other ailments are more or less "side issues" which readily yield to treatment. Dr. Flint's Heart Remedy exerts a specific and direct action on these organs. Descriptive treatise accompanies each bottle, or mailed free. It will repay a perusal and prove instructive and interesting. \$1.00.

At all druggists, or address J. J. MACK & CO., 9 and 11 Front St., San Francisco.

## MUNN &amp; CO'S PATENTS

After forty years' experience in the preparation of more than one hundred million applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, claims, trade-marks, copyrights, etc., for the United States, and in all other countries. Their experience is unequalled and their facilities are unsurpassed. Descriptive treatise accompanies each application, or mailed free. It will repay a perusal and prove instructive and interesting. \$1.00.

For further particulars inquire of the undersigned.

Subscribe for the GAZETTE. A house for rent. See 50-cent column. For a first-class meal, with all the delicacies the market affords, patronize the Palace Restaurant. H. C. Davis has just received a carload of Santa Cruz finishing lime and Wetherspoon New York plaster. Light and heavy spring wagons at J. T. Longabaugh's, Reno, Nevada, as cheap as you can get them in San Francisco. Nick Hamersmith, the well-known barber, will next week open a new shop on Virginia street, opposite the GAZETTE office. One of J. J. Becker's free lunches and a glass of his Sacramento or Boca beer is all that any one needs to take for a midday meal. C. A. Thurston is carrying a complete assortment of Lord & Taylor's, "Sanitary" cigars, meerscum pipes, and cigar and cigarette holders. Those neatly bound writing tablets to be had at C. J. Brookline's variety store are a great convenience, for your paper has no chance to become scattered and lost. Ladies', misses' and children's shoes and men's and boys' shoes, and furnishings goods at Thomas Barnett's a little cheaper than in any other place in town. By buying your clothing of Abraham Brothers, of the White House, you will find that it costs no more to always appear neatly dressed than to look like a rag-picker. The elegant stock of gents' furnishings goods just received by John Sunderland never fail to attract the attention of those wanting a good article of the latest style. Fresh rolled creamery butter from Boynton's ranch, kept in a Leonard refrigerator, at E. C. Leadbetter's. Lodi watermelons. Now is the time to put up peaches. Why pay out your money for an inferior article of meat while J. Frazer is selling the best for less money? Sample his boneless corned beef, the finest you ever tasted. Fred. Kolster does not claim to carry the largest grocery stock in town, but he does claim that his goods are second to none, and that his prices are as low as the lowest. Give him a call. Strictly pure wines and liquors for medicinal purposes can be had at Fassett's drug store. He analyzes for impurities every liquor he buys, and his guarantee accompanies each bottle he sells. No matter how far the overland passengers may have traveled, there are but few of them who have not heard of the excellence of the meals to be had at the Depot Hotel, and all go away fully convinced that Parry & FitzGerald are keeping up their well-earned reputation.

**Reduced.**

It is well known that F. Levy & Bros. keep the best of everything, their line of ribbons is perfect in quality as well as in assortment of shades, and it will be gratifying for our many friends to hear that they have reduced the prices of them, at the same time we have the firm guarantee that the ribbons are the very same choice quality for which they are celebrated. FOR DYSPEPSIA and liver complaint you have a printed guarantee on every bottle of Dr. J. C. F. Levy's. It never fails to cure. Sold by Ochsner & Shoemaker.

**FINLAYSON JOSE.**

The Testimonial Given Them Last Night a Grand Affair. The testimonial benefit given Miss Flora Finlayson and Richard Jose last evening at the Nevada Theater by the citizens of Reno was a grand affair. The audience was the largest, most enthusiastic and fashionable that has ever gathered at any entertainment in this town. Every available seat on the main floor was occupied, and it was found necessary to make room for extra chairs in the gallery. Many of the ladies were in evening dress and without bonnets. The stage, through the kindness of Mrs. D. A. Bender, of Carson, Mrs. J. B. Williams, Mrs. L. D. Folsom, Mrs. Frank Perkins, Mrs. Frank Bell, Mrs. P. Evans and Miss Jessie Finlayson, was artistically and tastefully furnished and presented the appearance of an elegant drawing-room.

The concert program throughout was enthusiastically enjoyed, but the gem of the evening was undoubtedly Miss Finlayson's rendition of Donizetti's "Deh Non Volar Co Stringere," that showed power of voice and purity and intelligent cultivation of tone. Mr. Jose's singing was unusually good, and all of his songs were followed with hearty applause. As an encore to "Little Wanderer" he sang "Papa's Footsteps," the piece that has served to gain him considerable reputation in the East. Mrs. J. A. Stephens, of Virginia City, captured the hearts of the audience first with "I Love Thee," and then, as an encore, "Kathleen Mavourneen." The duet between her and Mr. Jose, "Fly Away, Birdling," was by many considered one of the very best numbers of the program, and the two voices blending admirably. Mrs. D. A. Bender, of Carson, sang very sweetly and with great expression "Marguerite." The applause that followed was so enthusiastic that she sang as an encore the Scotch ballad, "The Bonnie Lass O' Mine." Owing to his illness, Colonel R. H. Lindsay was unable to appear. Mr. Richard Rule, the Comstock basso, kindly assisted in the choruses to Mr. Jose's songs.

The occasion was certainly an epoch in the lives of Miss Finlayson and Mr. Jose, and reflected the high appreciation in which they are held by the people of Reno. A large party in a four-in-hand, consisting of Mrs. W. H. Patton, Mrs. J. A. Stephens, Mrs. J. McCone, and Mrs. Frank Wildes, Mr. and Mrs. Ed. Yerington, Mrs. W. Berry, Mrs. Frank Frederick, Miss Bessie Rule, Miss Dollie McCone and Messrs W. Patton, and C. Colburn came over from Virginia City to enjoy the concert.

**The Proposed Brick Building on the Plaza.**

Reno's enterprising merchant, C. W. Booton, will leave this evening for Long Valley, where he expects to meet J. McKissick and confer with him in regard to the proposed large brick building on the corner of Plaza and Sierra streets. To a GAZETTE reporter this morning Mr. Booton said: "There is no doubt but that the building will be constructed this Fall. It will have a frontage of 100 feet. The first or ground floor will be divided into four large stores, but it is undecided just what the second floor will be built for. I am in favor of a theater, and I believe it would pay. McKissick has probably given the matter considerable thought, but I am unable to say what he favors. Before the end of the week I expect to have my store moved off the lot it now stands on, so that the work of excavation will continue. We hope to be able to determine definitely within the next ten days the character of the proposed building. When this is settled the work of construction will commence."

**On a Sad Journey.**

Thomas Crane, County Clerk of Storey county, accompanied by his father, passed through Reno last evening for San Francisco. While waiting here for the west-bound train Mr. Crane received the sad intelligence that his sister, Miss Mollie Harris, of Gold Hill, had died last evening about 5 o'clock. Miss Harris was a popular young lady, and who with her sister, went to the Bay a few days ago in search of health. The father, brother and sister with the corpse will probably be up on to-morrow morning's train en route to Gold Hill, where will take place the funeral and burial.

**S. V. & M. R. E. in Trouble.**

Horses, work cattle, wagons, harness, lumber, shovels, picks, sledges, etc., of the Sierra Valley & Mohawk R. R. Company were sold on last Saturday and Monday by the Sheriff of Plumas county to satisfy a judgment obtained by James Miller, Huntington & Hopkins, and others. The bed of the road, engine and other rolling stock are attached and advertised for sale. This road connects with the Sierra Valley & Mohawk R. R. one mile south of Moran Station and runs into Plumas county to a distance of 13 miles.

**Another Entertainment Promised.**

A GAZETTE reporter learned this morning that there was a movement on foot among her many friends of Reno, to have Miss Esther Marx, of Stockton, recite several of her choicest selections before she returns home. She has just returned from Lake Tahoe with Miss Fannie Barnett, whose guest she is, and it is to be hoped this opportunity to hear her will not be allowed to pass by. Rev. Henry Fisher, of the Baptist church on Second street, has kindly volunteered to give the young lady the use of the church as he did Miss Hildebrand.

**PERSONAL.**

Mrs. General C. W. Irish returned from the Bay last evening. Senator W. M. Stewart was a passenger for the Bay last evening, to be gone a few days. Miss Kitty Grippen, of Reno, is the guest of Mrs. F. C. Williams, in Chico, California.

Judge Rising and his daughters, Misses Susie and Nellie, went to Lake Tahoe yesterday to rusticate. Mark Averill, ex-principal of the public schools of Winnemucca, is reported sick at his home in Virginia City.

Judge J. A. Sackett, of Winnemucca, who has been in Reno several weeks, left this morning for Lovelock.

Mrs. Kittie Loomis, who has been visiting relatives and friends in California, returned home yesterday morning.

Ex-District Attorney J. A. Stephens, of Storey county, has been quite sick for several days, but was better yesterday afternoon.

Miss Stackhouse and Miss Long, teachers in the public schools of Virginia City, are the guests of Mr. Whittich, in Elk Grove, California.

Alex. McCone, the Gold Hill foundryman, came in last evening from a business trip to Nevada City and Auburn, remaining over here to attend the concert.

Miss Irene Geiger came over from Virginia City on last evening's train, attended the Finlayson-Jose concert, and left on this morning's overland train for Wadsworth.

Mr. Schlessinger, of San Francisco, in company with H. H. Townsend, of the firm of Townsend and Mr. Albert Frank, arrived in Reno this morning and will remain over until to-morrow.

Professor H. H. Howe passed through here last evening to California for a week's visit to his relatives, at Sacramento, Professor Howe, at San Francisco, the Banfroffs, and Mrs. Drexler, formerly of Virginia City.

Lieutenant Jacaril Spencer and his bride, nee Miss Katie Trille, formerly of Virginia City, have gone to West Point, New York, where he has been assigned to duty and where for the next four years they expect to reside.

Mr. H. Lowden, of the California Hosiery Company, who has been spending a few days in Reno among friends in the business world, left yesterday for Sierra Valley. He told a GAZETTE reporter before leaving that the proprietors of the Oakland Mills would exhibit on a large scale their various productions at the Nevada State Fair.

Mr. Robert Moore, of Winnemucca, son of the lady of 69 years who is engaged to the ranch hand, and of whom the California papers have so much to say, has gone to California. His object in going is to persuade his mother not to marry the Mr. Beck, but says that should his mother persist, he has no intention of shooting Black, as reported.

Hon. J. W. Powell, Assemblyman from Elko county in the last Legislature, passed through Reno this morning for Tuscarora. Mr. Powell has been in the employ of the Southern Pacific Company since the adjournment of the Legislature, but the outlook at Tuscarora was too much for him; hence his reappearance in the field of the new mining excitement, where he expects to make a big winning.

**A Chinatown in Transit.** Yesterday morning the N. & C. Railroad Company shipped about 30 Chinamen to Moran for the purpose of completing the extension of the road. They are to get \$1 and board for six days in the week. White men could not be secured at such wages, hence the managers think they were compelled to make the best of the situation. It was laughable in the extreme to see two flat cars loaded down with the tattered and paraphernalia of an embryo Chinese settlement depart from Reno, while a fair crowd of white laborers, seeking employment, gazed on in amazement at such an apparent usurpation of their rights.

**Orphans Having a Vacation.**

Quite a number of the wards of the State Orphan's Home are having a vacation among friends away from Carson. Of those who are spending their vacation here in Reno are Miss Annie Cook, Lee Cook, Willie Cook, Misses Nellie and Florence Moore. These pupils all have a good word to say of the school there.

**A Supper.**

Miss Flora Finlayson and Richard Jose gave a supper at the Depot Hotel last night to a party of friends from Virginia City. Forty-three persons were present. General C. C. Powning, being among the number was called upon for a speech and responded briefly but happily, complimenting highly the musical ability of Miss Finlayson and Mr. Jose.

**In Memoriam.**

There has been received to-day at this office a memorial to Ella Alzona Thompson, A. M., wife of Edward Thompson, L. L. D., Vice President of the University of Southern California, Los Angeles. Dr. Thompson is a son of the late Bishop Thompson of the M. E. Church, and Mrs. Thompson was a lady of rare literary accomplishments.

**To be Married.**

The cards are out for the marriage of Mr. B. B. Booth, of Utah, to Miss Lottie Rule, daughter of Mr. and Mrs. J. G. Rule, August 10, 1935. The ceremony, which will take place at the residence of the bride's parents in Virginia City, will be performed by Rev. Dr. McClure.

**Graders' Camp N. & C. R. R.**

There are about 80 men at work under J. T. Horn at the graders' camp on the north end of the N. & C. railroad. It is rumored that track-laying will commence within ten days.

**BREVITIES.**

**Local and General News.**

Duck hunting is now fine in Sierra Valley.

Potatoes retail in Virginia City for one cent a pound.

Good progress is making with the new ten-stamp mill of the Alta mine at Gold Hill.

The funeral of Mrs. Anna J. Johnson will take place from the Methodist Church at 2 o'clock to-morrow afternoon.

The brick work of the first story of the building being constructed alongside of the postoffice is completed and the joists for the second floor are laid.

The Central Pacific Railroad Company says that Indians riding free on their trains must do so on the tops of cars or wait for trains in which there are flat cars.

Constable Sylvan Upson went out to the Italian ranch, near Huffaker's, this noon, to arrest Peccitoli and bring him before Justice Young to answer the charge of using weapons with intent to kill.

The case of alleged contempt against Matt Callahan will be tried in District Court to-morrow. This is another water suit, and grew out of an old trouble between George Smith and Michael Logan and others.

Charles E. McDougall, formerly of Virginia City and at one time Deputy U. S. Marshall under Gus Ash, was knocked over the head by a Denver man on the night of August 1st and killed by some man unknown to the police authorities.

**Exodus From Pittsburgh.**

There was an exodus from Pittsburgh mining district last week. The Reville says the company has determined to discontinue employing the men on day's pay and notified them that all the work would be done on contract. The terms being too low did not suit the most of them, so that 51 miners packed up their blankets and left, some going to Austin, while others went to Tuscarora and Eureka. The company was employing over 100 men prior to this late change to the contract system.

**Small Favors Thankfully Received.**

Now, here's an item the Reno papers can copy with much gusto. It is founded upon information given us by a prominent physician of that town: There has not been a death in Reno for two months. There was a funeral there yesterday, but the corpse was imported from Virginia City, where they are daily produced. Now, get up and say that we can't tell the truth—Report.

**A Democrat for Blaine.**

Dominick Tarpey, of Salt Lake City, passed through to San Francisco last night. He is a brother of Hon. M. C. Tarpey, who was a candidate for Lieutenant Governor of California on the Democratic ticket last Fall. "I am, and always have been, a Democrat," said Mr. Tarpey, "but if Jim Blaine gets the nomination, I am one out of thousands who will cast his ballot for the Plumed Knight."

**Observer Charles A. Reed.**

Assistant Observer Charles A. Reed, of the Signal Service Station at Carson, passed through Reno from Winnemucca last evening to his post. Mr. Reed will be in the employ of the Government and under the direction of Observer Charles Friend. Mr. Reed is a scholarly gentleman and will do credit to the Service.

**Observer Charles A. Reed.**

Assistant Observer Charles A. Reed, of the Signal Service Station at Carson, passed through Reno from Winnemucca last evening to his post. Mr. Reed will be in the employ of the Government and under the direction of Observer Charles Friend. Mr. Reed is a scholarly gentleman and will do credit to the Service.

**RENO WATER.****A Scientific Analysis of that Supplied the Town and of Hunter Creek.****RENO WATER COMPANY.**

OFFICE OF C. M. FASSETT, DRUGGIST AND ANALYST, 1887, N. V., June 28, 1935.

T. K. HYMER, Esq., CLERK OF BOARD OF COUNTY COMMISSIONERS—DEAR SIR:

In accordance with your request I have made examination of three samples of water furnished by you, with special reference to such impurities as would render it unfit for domestic use, and leave to present the following report: Sample No. 1 was taken from the upper above town at the point where the Highland ditch takes its supply; Sample No. 2 was taken from the main reservoir, four feet from the surface, near where the water used in the town is taken; Sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabular statement of the results of the tests made:

(In parts per million.)

SAMPLES.	No. 1	No. 2	No. 3
Total solids.....	1,536	1,562	1,575
Free ammonia.....	.0076	.0082	.0076
Albumenoid ammonia.....	.0083	.0094	.0069

(In grains per gallon.)

SAMPLES.	No. 1	No. 2	No. 3
Total solids.....	5.596	6.784	6.834
Organic solids.....	.6142	.6216	.6144
Mineral matter.....	4.9818	6.1624	6.2196
Chlorine.....	Trace	Trace	Trace

The ammonia found indicates the presence of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. 1 and 3 is in a small proportion as can be expected in a stream which flows through so many towns as the Truckee, while in No. 2 it is in three times the quantity in the others, and above the limit of purity. The ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious matter, prejudicial to health, as that supplied to almost any city of the Union.

Impurities resulting from sawdust in the river would be shown in the table under the head of "organic solids," but the results obtained show that the amount of such matter is very small; much less, indeed, than is contained in many natural springs, some of which carry five grains or more of organic matter to the gallon just where they bubble from the earth.

The comparatively large amount of total solids in sample No. 2 is accounted for by the fact that the sample was taken from the ditch the second day the water was running in it, after it had been empty for a few days, the water naturally being turbid from the particles of all taken up from the bed of the ditch.

The samples all show an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit of safety, placed at "an alkalinity greater than that produced by adding one part, by weight, of caustic soda to one thousand parts of distilled water."

**THE WASHOE SEERESS.**

She Visits Her Former Home and Talks With a "Gazette" Reporter.

On Saturday last a GAZETTE reporter went to the Caledonia picnic at Bower's Mansion, and after tiring of the pleasures of the occasion he sought out Mrs. Sandy Bowers, popularly known as the "Washoe Seeress," who is well advanced in years. She sat in the midst of a large circle of friends, many of whom were her associates years ago, chatting and discussing the past. Like Marius among the ruins of Carthage, she frequently mused over her sad lot. Once in a while she would adjust her ear trumpet and beckon to some one of the party to come and take the other end of it. Finally she turned to the reporter, who remarked, "How are you, Mrs. Bowers?"

"Not so well, sir, as I might be. You're a reporter, are you not?"

"I am."

"Then, my son, don't you know that I'm not in the best of spirits when I'm not in Sandy's Mansion as a guest, especially when I consider that I was once the queen of the whole of Washoe Valley? Ah, it makes my heart weary when I look up to the hill yonder and see the fence that surrounds the remains of my dead Sandy."

"I certainly sympathize with you," ventured the reporter.

"Sympathize," said the old lady contemptuously. "The world is full of unfeeling sympathy. Such sympathy is to me of no use. You're from Reno, I believe. How are all the good people down there?"

"I haven't time to look into the future," she answered. "It's the present that's troubling me. My own countrymen have not encouraged the Caledonians with their old-time vigor to-day." She continued: "I'm sorry that such is the case. You may say for me that I'm going to Lake Tahoe from here and will remain one week."

"For your health?" asked the reporter.

"Not at all. Am I not healthy looking enough. I'm going to tell the women folk what they may expect in the future. Oh, the future," she exclaimed, as she adjusted the ear trumpet, "if they could only see it as I see it, they would not hesitate a moment to come and receive counsel from me."

"What place will you visit next?"

"Reno; but I will not be there for at least ten days. There are lots of people in Reno that I know well. Many and many a time have Sandy and I said: 'That's the spot upon which a large and prosperous city will be built. Factories, mills and other industries will flourish there, my son.' The waters of the Truckee are more valuable to Reno than all else. If Sandy had taken my advice, I would have a massou there to-day and not be a wanderer among the hills and in the valley, that once I could have purchased for a song."

Use VICTOR for dyspepsia, constipation, liver and kidneys. For sale by all druggists.

**BOHN.**

BOHN.—In Reno, Nevada, August 3, 1887, to the wife of D. B. Bohn, a son.

**DIED.**

HARRIS.—In San Francisco, August 3, 1887, Miss Mollie Harris, of Gold Hill, Nevada.

THOMPSON.—At Los Angeles, California, July 1, 1887, Mrs. Ella A. Thompson, wife of Edward Thompson, L.L.D., a native of Ohio, aged 37 years.

**RENO WATER.****A Scientific Analysis of that Supplied the Town and of Hunter Creek.****RENO WATER COMPANY.**

OFFICE OF C. M. FASSETT, DRUGGIST AND ANALYST, 1887, N. V., June 28, 1935.

T. K. HYMER, Esq., CLERK OF BOARD OF COUNTY COMMISSIONERS—DEAR SIR:

In accordance with your request I have made examination of three samples of water furnished by you, with special reference to such impurities as would render it unfit for domestic use, and leave to present the following report: Sample No. 1 was taken from the upper above town at the point where the Highland ditch takes its supply; Sample No. 2 was taken from the main reservoir, four feet from the surface, near where the water used in the town is taken; Sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabular statement of the results of the tests made:

(In parts per million.)

SAMPLES.	No. 1	No. 2	No. 3
Total solids.....	1,536	1,562	1,575
Free ammonia.....	.0076	.0082	.0076
Albumenoid ammonia.....	.0083	.0094	.0069

(In grains per gallon.)

SAMPLES.	No. 1	No. 2	No. 3
Total solids.....	5.596	6.784	6.834
Organic solids.....	.6142	.6216	.6144
Mineral matter.....	4.9818	6.1624	6.2196
Chlorine.....	Trace	Trace	Trace

The ammonia found indicates the presence of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. 1 and 3 is in a small proportion as can be expected in a stream which flows through so many towns as the Truckee, while in No. 2 it is in three times the quantity in the others, and above the limit of purity. The ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious matter, prejudicial to health, as that supplied to almost any city of the Union.

Impurities resulting from sawdust in the river would be shown in the table under the head of "organic solids," but the results obtained show that the amount of such matter is very small; much less, indeed, than is contained in many natural springs, some of which carry five grains or more of organic matter to the gallon just where they bubble from the earth.

The comparatively large amount of total solids in sample No. 2 is accounted for by the fact that the sample was taken from the ditch the second day the water was running in it, after it had been empty for a few days, the water naturally being turbid from the particles of all taken up from the bed of the ditch.

The samples all show an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit of safety, placed at "an alkalinity greater than that produced by adding one part, by weight, of caustic soda to one thousand parts of distilled water."

First—That the water supplied to the town through the main reservoir is not sufficiently pure to be used for domestic purposes with safety.

Secondly—That the water in the river is reasonably pure and wholesome, and that the water supplied to the town receives the greater part of its impurities in the main reservoir and its approaches.

Thirdly—That the water supplied to the town receives the greater part of its impurities in the main reservoir and its approaches.

It is advisable to the seaward question, I quote the following extract from an article on water by Professor S. P. Sadler, Ph. D., Professor of Chemistry in the University of Pennsylvania, etc., etc.: "Organic matter may be derived from a vegetable source, such as leaf mould, and the decomposition products of wood, in which case it is practically harmless, or it may be derived from animal sources, in which case it almost always causes a serious injury."

Respectfully submitted, C. M. FASSET
